

GEORGIA WATER RESOURCES CONFERENCE

SPONSORSHIPS INSTITUTIONAL

Since its inception in 1989, the goal of the Georgia Water Resources Conference has been to provide an open forum for the discussion of current water policies, research, projects and water management in Georgia. Last year, the conference featured 24 posters and more than 200 panel discussions and presentations and was attended by over 300 participants. Attendees were comprised of environmental and water professionals; local, state and federal agency representatives; watershed organizations; researchers, students, public service and faculty/extension agents and educators.

Sponsorships are essentials to keep our registration fees as low as possible and bring in noteworthy keynote speakers. As the conference draws closer, we are turning to you to help ensure that this essential forum for water resources science and policy can continue to prosper and grow. We are making the following sponsorships available to organizations as an opportunity to support the biennial Georgia Water Resources Conference and promote your organization through conference publicity to a diverse audience of government, private, academic and non-profit sectors.

ATLANTIC STURGEON

An institutional Atlantic Sturgeon sponsorship of \$4,000 provides recognition on all press materials, conference proceedings and website, logo on opening conference slides, exhibit booth space, and 10 full registrations (two days of attendance + luncheons.)

ROBUST REDHORSE

An institutional Robust Redhorse sponsorship of \$2,000 earns recognition on conference proceedings and website and 5 full registrations (two days of attendance + luncheons.)

If you have any questions or would like to become a sponsor, please reach out to Cheryth Youngmann at cheryth.youngmann@uga.edu. Thank you for helping to support the Georgia Water Resources Conference!
